## BETTER SEED AND CHEAPER SEED

ON account of the scarcity of paper and the continued advance in prices of both paper and printing, we have decided to issue only this price list as a supplement to our last season's Catalogue.

Our stock of Seeds is again complete with the New Crop. We are in a position to serve our patrons promptly with as good quality as can be secured at the lowest prices since the beginning of the World War.

At the time this goes to press there are a number of items which are fluctuating in values, and for this reason we are not quoting prices on them but will be pleased to answer any inquiries and name the market values at that time. This is more particularly true of most Field Seeds.—All prices are subject to change without notice.

Respectfully soliciting your season's requirements, we await your early order.

### OAKLEY-PATE SEED CO.
